

MAYUGE DISTRICT

Improve Youth-Friendly Health Services

An illustration of a nurse in a white uniform and cap talking to a young woman in a grey top and blue skirt. A speech bubble from the nurse says, "Nangobi, you are too young. I will not give you family planning." A thought bubble from the young woman says, "What do I do now?"

Nangobi, you are too young. I will not give you family planning.

What do I do now?

An illustration of a young woman in a grey top and blue skirt talking to a young man in a green polo shirt and dark pants. A speech bubble from the man says, "When I went to the clinic, the staff told my parents!"

When I went to the clinic, the staff told my parents!

SIX MONTHS LATER...

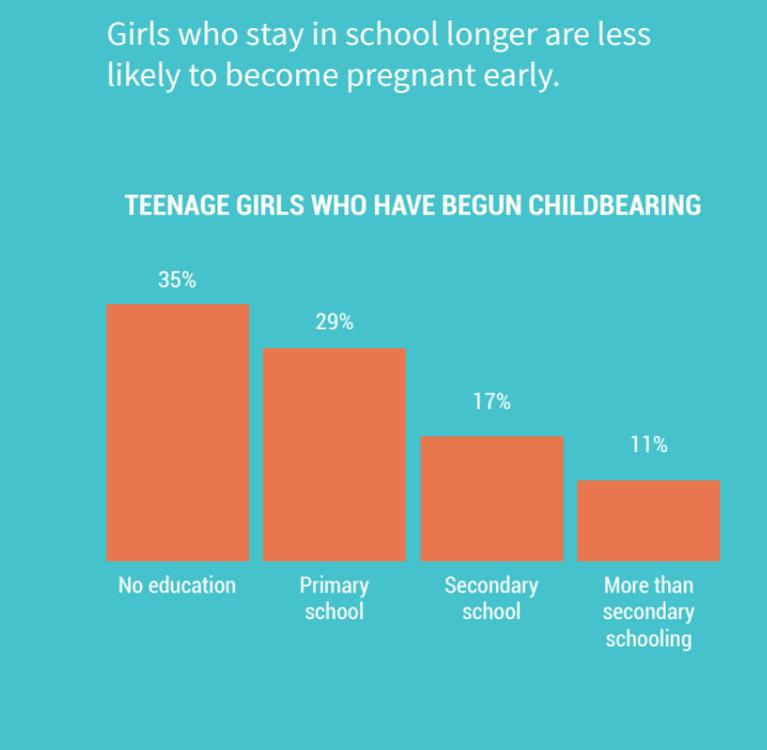

An illustration of a young man in a green polo shirt and dark pants standing next to a young woman in a grey top and blue skirt who is pregnant. A speech bubble from the woman says, "Oh no! I'm pregnant."

Oh no! I'm pregnant.

Without access to family planning, young women in Mayuge District are more likely to become pregnant.

A white icon of a pregnant woman inside a circle, which is part of a larger circular graphic with a teal and orange border.

21% of women ages 15-19 have begun childbearing.

An illustration of a nurse in a white uniform and cap.

Health care providers who receive youth-friendly service training treat young people with respect and support their needs. Young people become more comfortable seeking services and more likely to access family planning.

IF PROVIDERS WERE TRAINED...

Let me tell you about the different family planning methods.

With greater access to family planning, more young women in Mayuge District will avoid unplanned pregnancies, stay in school longer, and contribute more to the economy as adults.

Decisionmakers have a responsibility to ensure that all health services in Mayuge District are youth-friendly.

DECISIONMAKERS SHOULD:

Prioritize funding for public-sector health care providers' training on youth-friendly services in the 2020-2021 district budget.

DECISIONMAKERS SHOULD:

Include youth-friendly training in health care providers' existing refresher trainings.

DECISIONMAKERS SHOULD:

Educate communities on the importance of making health facilities youth-friendly.
